

SECURITIES & EXCHANGE COMMISSION OF PAKISTAN

Press Release August 24, 2018 For immediate release

SECP releases five-year comparative performance of private pension funds

ISLAMABAD, August 24: Private pension funds were introduced in 2007 under the Voluntary Pension System Rules, 2005. At present, there are 19 pension funds, out of which 10 are Shariah compliant and 9 are conventional. These funds are managed by10 experienced pension fund managers.

The pension funds provide participants with options to invest in securities and commodities. Participants can choose allocation policies suiting their risk and return preferences. The total net assets of the voluntary pension fund industry are currently over Rs26 billion contributed by more than 25,000 participants.

The fund managers, depending on the asset class, charge fees ranging from 0.5% to 1.5% per annum. Furthermore, the fund managers can charge sales load up to 3% of the contribution on direct sales and up to 1.5% of the contribution if an investor carries out transaction online. However, the pension fund managers have been prohibited from charging sales load on subsequent contributions made by a participant whether directly or online.

Over 65% of the assets of the pension fund industry are invested in Shariah-compliant funds.

All persons with CNIC are eligible to become members of pension funds and accumulate savings for their retired life. Participants can choose retirement age between 60 to 70 years. Upon retirement, they can withdraw up to 50% of the accumulated balance in lump sum and the remaining 50% in installments. Tax credit of up to 20% of taxable income can be availed upon investment in pension funds. Moreover, persons over 40 years of age can avail even higher tax benefits.

Periodic performance of the pension funds relating to the last five financial years, released by the SECP is tabulated as follows:

Shariah-compliant schemes
